"The Tiger Foundation seeks to foster educational, technical and cultural opportunities that will enhance excellence in public education in the Marple Newtown School District."

February 17, 2009

Dear Parents/Guardians:

In 2006, The Tiger Foundation was revitalized. Its Board of Directors generated a new mission statement: "to foster educational, technical and cultural opportunities that will enhance excellence in public education in the Marple Newtown School District."

The Tiger Foundation holds an annual gala of the arts to raise money to support the school district. The Foundation supplies grants to professional staff members for special projects. Over \$30,000 has been provided for grants for all six schools in the past three years. Examples of the more than 50 grants funded by The Tiger Foundation include:
